

EPS-CRC TECHNICAL DATA SHEET

Description

EPS-CRC is a strong and effective chrome roller cleaner for use on your chrome dampening rollers. This product will clean and desensitize your rollers and restore their water carrying capacity by removing ink and oxidation and adding a protective, and water receptive film to the surface of your rollers.

Application Information

Safety First - Review Safety Data Sheet (SDS) and secure proper Personal Safety and Protective Gear.

Application:

Shake well before use.

Once ink has been removed from the dampening system, apply a liberal amount of EPS-CRC to the chrome roller with a damp cloth or sponge, using a back and forth motion until the entire roller has been treated. Allow some time for the roller to air dry before restarting. Excess product can be lightly buffed away if needed.

Typical Properties of FS-692

VOC = 0.0 lb/gal (0 grams/liter)

Color = milky tan

Odor = Mild

Advantages and Benefits

- Non-abrasive formula that provides excellent cleaning power
- Easy to apply and long lasting
- Prevents ink from building back up on metering roller
- Makes metal rollers more water attractive

Packaging

EPS-CRC is available in quarts.
